Subject: revised well purge section
[Well purge methods SAP - 01Aug2012.docx](#)

A hardcopy of the well purge section from the USGS SAP is in the mail for our review (as well as other members of the Tech Team). Donna Myers sent me an electronic copy in advance. I wanted to share this with you and get your thoughts on how the USGS responded to the our comments provided earlier on the well purge section. I would like to reply back to Donna early next week, so please send me comments at your earliest convenience.

FYI - Donna sent the electronic copy in advance as a courtesy because we provided the most substantial comments in the past. It appears the USGS has concerns about other tech team members (not us) sharing materials outside the group (deja vu). Not that I think you would, but please don't distribute this advance copy any further. Thanks.
